THE UNITED MUSEUM WORKERS NEED YOUR SUPPORT!

Labor Day isn't just the unofficial end of summer or the start of a new school year. On this day, we celebrate the contributions and resilience of all workers and the American organized labor movement. Here are a few achievements to thank unions for: the 8-hour work day, weekends, overtime pay, and the Family and Medical Leave Act.

The United Museum Workers are a community that stands for community. We come TOGETHER across disciplines to connect people, create conversations, and make the museums inspirational and truly inclusive for everyone. Our online and on-site audiences are at the heart of all that we do.

Community support keeps our museums alive and ensures our jobs. In circulating this petition, we are calling upon those we serve to unite with us and request that leadership recognize our right to empower and protect everyone within the CMP community.

Stand with your coworkers and secure your future. Dig deep into your network and circulate our call for solidarity as far and wide as possible!
